---

These tools are all .com unless otherwise stated! They are all web based and require no downloads. Some do require sign up and most are available as smartphone apps!

## Customer Service

---

- [Feedbackify](#) – Add instance feedback surveys to your website in cute little pop-ups
- [Textthemob](#) – Instant, real time polling that can integrate into anything
- [Polleverywhere](#) - Real-time polling using texting or the web.
- [Profittrain](#) – Create easy invoices! Start charging patrons!
- [iTrulyCare](#) – Collect donations or spread the word about community projects or programs

## Productivity

---

- [WikiCards](#) – Create your own virtual index cards (or card catalog). Organize and share!
- [TaskAnt](#) - Generate to-do lists for your team projects, via email or text
- [SlideRocket](#) – Super fancy presentation app, with built in access to flickr and templates!
- [Lucidchart](#) – Create fun organizational or flow charts
- [BigMarker](#) - Free and unlimited web conferencing

## News/Information/Social Media

---

- [Pictory](#) – The best photo stories out there. Read or create your own!
- [Storify](#) – Blend social media and news to build new stories around a topic
- [PostPost](#) – Mine twitter for the information you really need!
- [Peeplo](#) – A search engine with site credibility built in!
- [Klout](#) – How well do you work the web?

## Music & Creativity

---

- [Spotify](#) – Free streaming music. You need this now!
- [Grooveshark](#) – Another free music app. Lots of playlists.
- [Filmnet](#) – A place where filmmakers share what's new!
- [Kerpoof](#) – Creative media for kids.
- [Glogster.edu](#) – An educational version of the classic “visual blogging” site

## Books/Reading

---

- [Booklamp.org](#) – Get advice on what to read next based on a book's DNA
- [Booktrack](#) – Soundtracks for you eBooks. Good Idea or Bad idea?
- [Booklending](#) – Share Kindle books with those around you
- [Movellas](#) – Create and share stories on the move
- [Kno](#) – Cheap e-textbooks
- [Float](#) or [Pulse](#)- Organize your reading

## Just for Fun!

---

- [Toonlet](#) – Make webcomics in seconds, just add hilarity and/or snarkiness!
- [ASCIIFlow](#) – Make ASCII drawings without the work. Amaze your (geek) friends!
- [Shallibuy.it](#) – Ask the mob (or your friends) before making a purchase. Still in beta.
- [Hipmunk](#) - Super travel search, made better by cute chipmunks in aviator gear.
- [Memebase](#) – Absolute hilarity. Read posts or create your own. Hipster cat demands it!

## Oldies but Goodies

---

- [Prezi](#) – Powerpoint’s Arch-nemesis! Zooming presentations!
- [Dropbox](#) – Store all your data and sync all your gadgets! Essential!
- [Trendsmap](#) – Real time twitter trending using GIS. Fabulous!
- [Whatdoyousuggest](#) – A smarter search engine
- [YTTM.tv](#) – Travel through time with you tube! Great for education those 90’s born undergrads!
- [Cramberry](#) – Virtual flashcards sync-able through devices

## Just Plain Websites

---

- [The99percent](#) – Like Ted talks, but more!
- [Gizmodo](#) – The ultimate geek gadget blog
- [Ehub](#) – Emily Chang knows what is cool
- [Ars Technica](#) – Follow tech trends in all areas
- [Mashable](#) – Guiding you through the world of social media
- [Social Media Websites](#) – Lists of new SM sites
- [Makeuseof](#) – Tips and guides for the Web 2.x world!

Thanks for coming to my presentation. I hope you learned something useful!
