

Hi! My name is Connie Adams Bush and I've worked at the Daniel Boone Regional Library for a number of years, okay, over 30! During that time, I've had the opportunity to have a variety of responsibilities. I started out working in the children's department and still love the age group, both the people and the materials. I've worked with the public access computers and readers advisory. I'm currently working in circulation, the heart of the library! I am a manager and enjoy the challenge of making the library responsive to customers needs. As Circulation Manager and Popular Materials and Services Librarian, I hire and train staff who work with the public. I'm constantly working with them to make sure all of us are working together as a team to give our customers the best service we can provide. While the role a staff member plays in fulfilling the mission of the library varies, it takes all of us to make the library successful.
