Questions to ask yourself before starting your own Group Reading Challenge

- Will this group meet in person, online, or both?
- How many books will be sufficient for the challenge to be challenging, but not TOO challenging?
- Will everyone read the same book or different books?
- Will everyone work on the same categories each month or will people be able to work on whichever categories they choose each month?

How to Get Started

- Get the list of categories when they are released
- Create bookmarks to put into books/audio books the library has on the shelves
- Put up a display in December or January with some of the books and a sign promoting your club
- Send out an e-mail to those who sign up before the first meeting with the category list and book suggestions

**End of Year
PARTY!!!**
